People for the Forest
Products Industry**

The first biennial "From Forest to Finished Product" Conference and Expo is scheduled for November 17-19, 2008, at the University of Georgia Center for Continuing Education Conference Center & Hotel, Athens, Georgia in partnership with Georgia Research Institute (GRI) and the Warnell School of Forestry and Natural Resources. This industrial conference/expo is a unique opportunity for technical research, process technology manufacturing, machinery, sales and marketing training and education information exchange. Multiple simultaneous Tracks will cover information and technology transfer for forest/forestry issues, logging; sawmill and solid sawn lumber; engineered lumber/lam beams; panels (structural and non-structural) and related value-added products. In-depth specialized training will be offered in a veneer and strand based course.
